General Information

TIME: Saturday, March 19, 1966. Show at 8:45 A.M., Sale at 12:00 Noon, SHARP.

LOCATION: The sale will be held in the sales pavilion at Hawkeye Downs, Cedar Rapids, Iowa, on U.S. 30 and U.S. 218. On paved roads between Cedar Rapids and the airport.

LUNCH: Will be served on the grounds.

1. The auctioneer will settle any disputes as to bids.
2. Terms: Cash, unless arranged before the sale between seller and buyer and clerk so notified.
3. Guarantee: All cattle are sold subject to a sixty day retest for Tuberculosis if kept isolated, unless going into a Federal Accredited Herd. Health certificates will be furnished to enable them to be shipped into other states. All cattle have been tested for Tuberculosis unless they come from an accredited herd. The cattle have been tested for Bang's within 30 days or are calfhood vaccinated. Bulls are guaranteed breeders if properly cared for, not allowed to run with the herd, and not used before 14 months of age. If a bull fails to breed, he may be returned to the seller and if after a test in the seller's herd he still fails to breed he will be replaced or the purchase money be refunded. All cows with calves at foot are considered breeders and no further guarantee is made with respect to them. All other cows and all heifers over 14 months old at the time of sale are guaranteed to be breeders. Heifers should not be served by heavy or old bulls. The buyer must give the seller notice within 90 days in case of a non-breeder. In the case of young bulls, this means within 90 days after they become 14 months of age. All animals must be in as good condition as when purchased to be eligible for adjustment. Animals returned to sellers because they do not comply with guarantee will be at the buyer's cost of transportation. The above guarantee and terms shall constitute a contract between the consignor and buyer of each lot.
4. The Sale Manager and Clerks act only as agents for the several consignors to the sale, making collections for the account of each consignor and they do not assume any responsibility for the above breeding guarantee.
5. Your sale manager liked a feature at the Perth, Scotland, sale in 1960. The seller stood near the auction block. He could state a "Reserve Bid" or have the auctioneer announce "No Sale". We will follow that practice. In case of a "No Sale", the seller pays the regular prorata sale expense, but there will not be any manager's fee. However, if any animals are "By-Bid", there will be due the manager's 2% fee.
6. A Certificate of Registry and signed transfer will be furnished for each animal sold and an application for registry will be furnished for each unborn calf.
7. We will not be responsible for any accidents that may occur, but will make every effort to provide for the safety and comfort of our guests.
8. Mail Bids: Those wishing to buy at this sale and who cannot attend may send their bids to the auctioneer, sale manager, or special representatives.
9. Auctioneer: J.E. Halsey, Des Moines.
10. Special Representatives: Dwayne Dietz of the Shorthorn World, Tom Sherlock, Wallaces Farmer, Roy Wagener, Bellevue, Ted Aegerter, American Shorthorn Association.

BARBARIAN'S CLANROY - A great son of Louada Barbarian and from a female family that is one of the best producers in the herd. A full brother is doing a very good job in the good herd of Mr. & Mrs. Jerry Yates, Palmyra, Mo. He had to dehorn this bull as he broke a horn. He wouldn't look out of place in a right good polled herd. A bull with a good scale. He weighed 1300 lbs. at 22 months and no wasted fat.

BARBARIAN'S COUNT - A rather tightly bred bull, but looking at this young bull it hasn't hurt. Eliza Bar runs back to old N-Bar and the Eliza family has always been a good female family for us. His dam was 1st place Spring Yearling Iowa State Fair a few years ago and also in 1st place group of three. This bull weighed over 900 lbs. at a year old.

LADOVI GOLDEN CHAIN 3D - Good breeding in this good producer. Her 1964 steer calf was 2nd in class at Cedar Co. Fair and her 1965 calf went to Illinois for 4-H work. Pasture bred to M F Copyright 2nd.

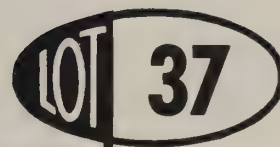

Our present herd bull MF Copyright 2 was purchased in the 1963 fall Wisconsin State Sale from Miller Farms, Lodi, Wisconsin at \$500.00. I believe he was the 2nd highest selling bull in that sale. His sire was Chapelton Copyright, a white imported bull, from the Biggar herd who in turn was sired by Calrossie Contribution. His dam was Emblems Clara 7th sired by Kickapoo Super Chief. He is a dark roan and good size, having weighed 1650 lbs. in pasture condition as a two year old.

As you know our herd has produced many Cedar County Fair champion steers and heifers, a champion Shorthorn steer at the Wyoming steer show and many of them have placed near the top at the All Iowa and State Fair, and the International.

She is sired by Victorious Ranger who also sired my 1964 Champion and 1965 Reserve Champion heifer at the All Iowa Fair, and first in class at the Iowa State Fair. Half sister to the steers shown above. Calfhood Vaccinated.

MOOREWOOD LADY PERFECT - A dehorned heifer coming with her second calf. She is bred to Lynnwood Heritage x, 1962 Iowa Champion.

Polled Shorthorn cows in the pasture of Harold Bacon, Good Hope, Illinois.

Early on sale day, October 12, 1907. S.P. Girton with the white shirt and son, Roscoe and Earl, holding calves nearest to him. Sale held at State Center, Iowa.

YOU SHOULD CONSIDER "THE SHORTHORN INFLUENCE" IN CROSSBREEDING TO PRODUCE MORE WEIGHT AND VIGOR IN YOUR BEEF PRODUCTION PROGRAM

There is a potential for producing 20% more beef with little or no increase in numbers of cattle in Iowa through the use of crossbreeding. This increase through heterosis or crossbred vigor is due to increased fertility, increased survival rates, and increased weights of calves resulting from crossbreeding and a planned breeding program.

Do not crossbreed to cover up poor management. Do not crossbreed unless you are going to use performance bred bulls and evaluate your program through performance testing. Crossbreeding for the sake of crossbreeding in a systematic and evaluated manner can be most useful.

HERE'S WHAT A SHORTHORN OR POLLED SHORTHORN BULL CAN DO FOR YOU COMMERCIAL CATTLEMEN!

Above: A family portrait. Mama is one-half Shorthorn and one-half Holstein. Dad is a white ton Polled Shorthorn bull. Note the depth, thickness and beef type of the calf.

We have bulls in this sale that are ideal for crossing on black or whiteface cows and dairy cows as well as for upgrading Polled Shorthorn and Shorthorn herds.

REMEMBER! Reds, Whites and Roans are the great improvers.

CROSSBREDS DO BEST, ILLINOIS FEEDER CLAIMS

From the January 21, 1966 issue of Drovers Journal

Stanley Nesemeier probably won't endear himself to several groups, but he maintains, "the best thing the Shorthorn breed is doing today is to provide a cross with the other breeds". The Carroll County, Ill., farmer insists it is necessary for additional weight and scale.

"I like to feed crossbreds, because I think they do better and gain faster," Nesemeier said. "It is just like crossbreeding in hogs. A cross will, in most cases, do better than any straight bred."

For his crossbreds, Nesemeier prefers a Shorthorn crossed with Angus. Most of the time these sell like Angus, he indicates. He admits the best doing cattle he ever fed were a Hereford-Shorthorn cross, however.

"The trouble with a Shorthorn cross, right now at least, is that they are hard to find, particularly at the time when you want them or are ready for them," he said.

This problem is not insurmountable, Nesemeier found. With the acquisition of another farm, one with timber and pasture, he also added a 40-cow herd of Angus, headed by a rugged Shorthorn bull.

THIS IS ANOTHER EXAMPLE OF CROSSBREEDING —SHORTHORN BULLS ON HEREFORD COWS FOR ADDED WEIGHT-FOR-AGE AND VIGOR

THE SHORTHORN INFLUENCE

John Catron, cattle and sheep operator at Camp Crooke, S. D., set about to prove something to himself about the competitive-ability of beef breeds. He placed a Shorthorn bull, a Hereford bull and an Angus bull (each a 2-year-old) with 120 commercial Hereford cows. He weaned his calves as lightweights and discovered this:

105 calves were dropped—

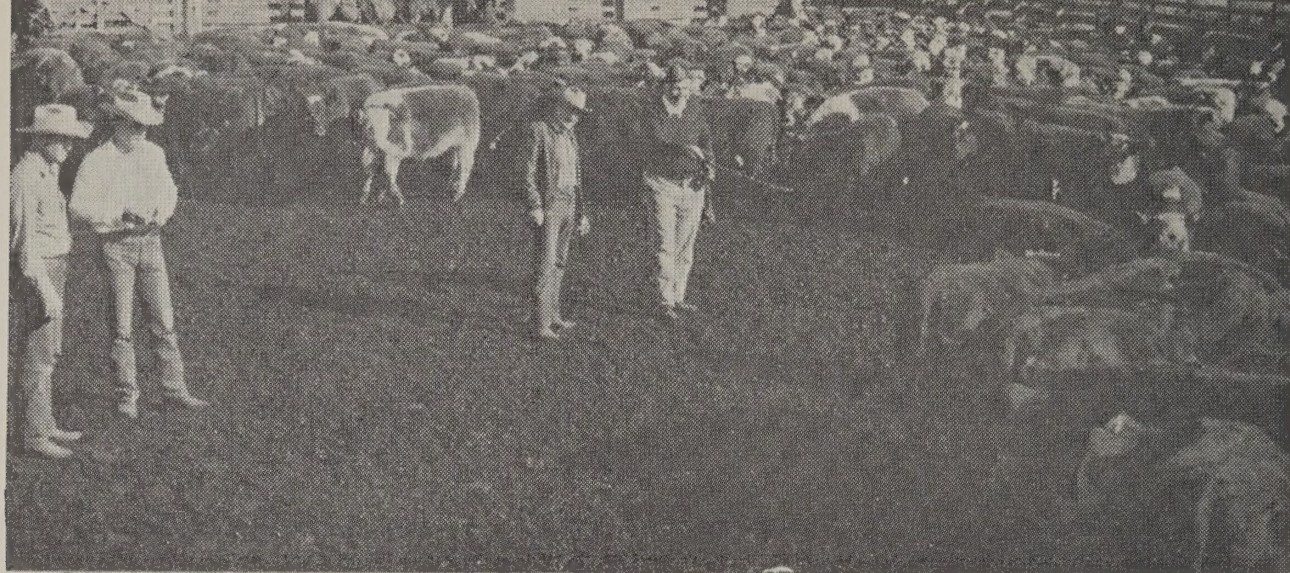

47 were Shorthorn crosses averaging 330 lbs. at weaning.

34 were Herefords averaging 306 lbs. at weaning.

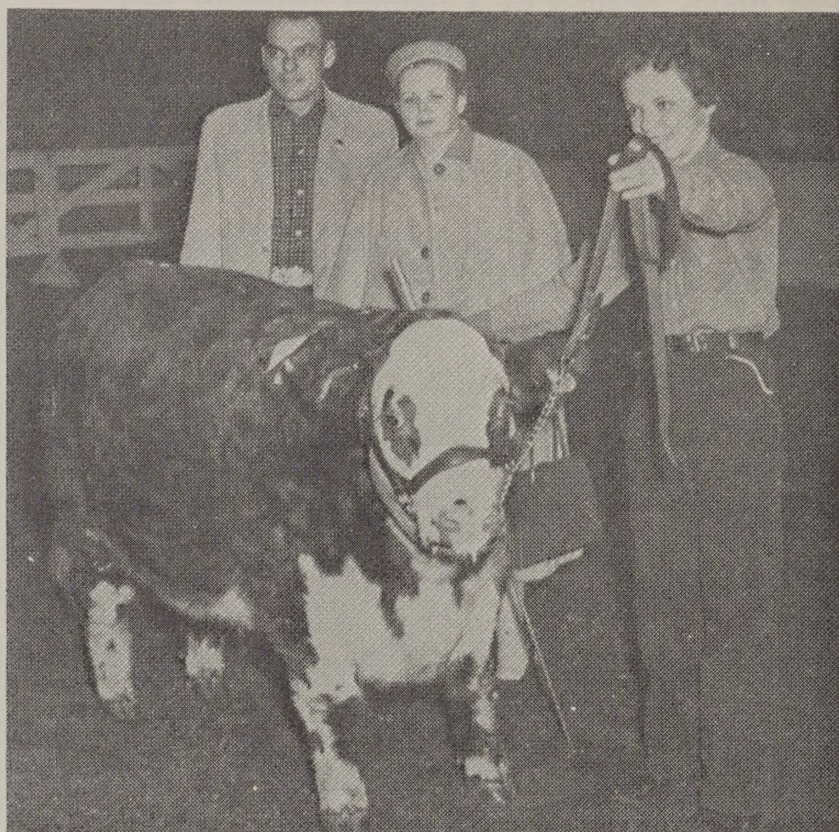

24 were Angus crosses averaging 313 lbs. at weaning.

John Catron has scales on his 56,000-acre ranch. He knows for sure. The "SHORTHORN INFLUENCE" gave him 15,510 pounds of saleable beef. The Herefords - 10,404 pounds. The Angus - 7,512 pounds.

(American Shorthorn Assn.)

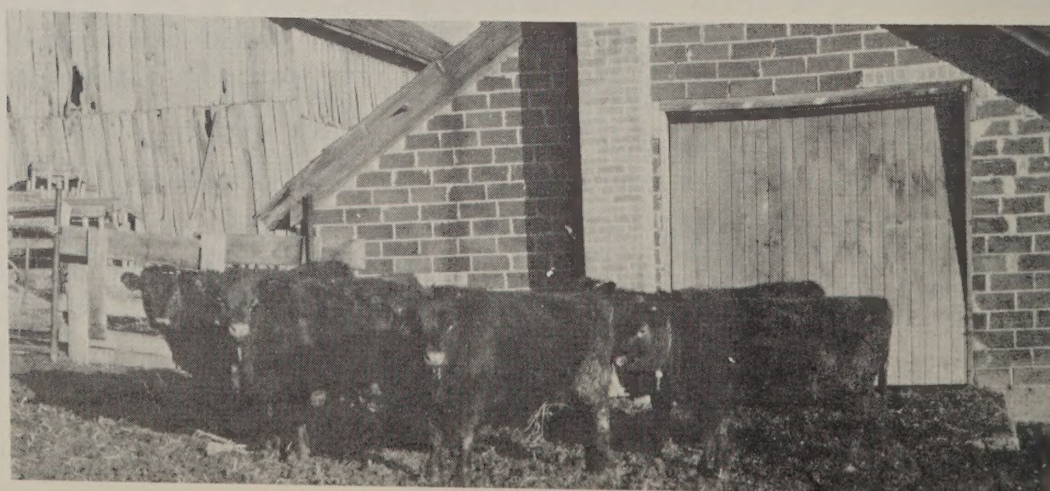

Tom Hawkins, second from right, of the Hawkins Cattle Co. of Hollister, California, showing part of 400 steer calves. They have a herd of some 80 head of real good registered Shorthorn cows headed by fine bulls in order to produce bulls for crossing on over 1000 head of white fact cows. They have found that cross breeding pays.

An International champion sired by a Polled Shorthorn bull and from a white face cow. With cross breeds the animals show in the classes of their sires.

Last but not least. A group from which Otis Rothlisberger has selected his entries for this sale. It is females like these that we need to produce our stock for the purebred herd, for upgrading commercial herds and for cross breeding. We invite you to make your selections in this Hawkeye Downs Sale.
